Senior Engineering Leader | Platform Engineering | Cloud SaaS | Agile & DevOps Transformation

Summary

Visionary engineering leader with 22 years of experience building **enterprise-scale platforms, SaaS solutions, and cloud-native architectures** across AWS and Azure. Proven expertise in leading **multi-tiered organizations of engineers and managers**, delivering **secure, scalable, and reliable platforms** that enable faster product innovation and customer success. Skilled in **platform engineering, microservices, DevOps, and CI/CD adoption**, with a strong track record of transforming organizations through Agile delivery, quality engineering, and data-driven decision-making. Recognized for fostering a **people-first culture of collaboration, inclusion, and continuous learning**, while aligning technology strategy with business growth.

Leadership Highlights

- **Platform Engineering Leadership:** Directed creation of **integration, DevOps, and ERP platforms** at ADNOC and TCS, enabling scalable product delivery and digital adoption.
- **Cloud & Distributed Systems:** AWS Certified Architect with deep expertise in **AWS, Azure, Kubernetes, and microservices**, leading delivery of enterprise SaaS platforms with focus on **resilience, scale, and security**.
- **People-First Leadership:** Built and scaled global teams of **30+ engineers/managers**, mentoring future leaders and fostering **high-performance, inclusive culture**.
- **Quality & Reliability:** Defined **QE strategy and shift-left testing** (BDD, automation), reducing turnaround cycles by **50%** and improving customer satisfaction.
- **Strategic Delivery:** Established PMO and governance frameworks; partnered with C-Suite stakeholders to define **platform roadmaps, KPIs, and budgets**.
- **Cross-Functional Collaboration:** Partnered with **Product, Ops, and GTM teams** to align platform strategy with business priorities and customer needs.

Key Skills

- **Leadership:** Organizational Design, Talent Development, Coaching, Career Growth, Stakeholder Management
- **Cloud & Platform:** AWS (Certified Solutions Architect), Azure, Kubernetes, Docker, Microservices, SaaS Platforms
- **Quality Engineering:** Test Strategy, Shift-left Testing, BDD (Cucumber/SpecFlow), CI/CD Automation

- **Agile & DevOps:** Scrum, SAFe, Kanban, Governance, Continuous Improvement, SRE Principles
- **Architecture & Security:** Large-Scale Distributed Systems, Enterprise Architecture (TOGAF Certified), Secure & Compliant Delivery
- **Strategic Delivery:** Platform Roadmaps, Budget Mgmt, KPI Tracking, Cross-Functional Collaboration

Experience

ADNOC Gas – Program Manager

Aug 2022 – Present | Remote, India

- Built **integration and DevOps platforms** for newly formed ADNOC Gas, enabling unified digital transformation across entities.
- Directed engineering teams to deliver **secure, cloud-native platforms (AWS, Azure)** with strong governance and compliance.
- Partnered with product and operations teams to define platform vision, scope, and execution.
- Mentored managers and engineers, embedding people-first leadership and continuous improvement culture.

ADNOC Gas Processing – Program Manager

Sep 2019 – Aug 2022 | Abu Dhabi, UAE

- Led ERP readiness program, ensuring **platform scalability, reliability, and compliance**.
- Established governance, KPIs, and delivery frameworks aligned to business outcomes.
- Coordinated distributed engineering and vendor teams to deliver mission-critical enterprise platforms.

Tata Consultancy Services, UK – Manager, Solution Architecture

Sep 2016 – Aug 2019 | United Kingdom

- Built a **cloud-native SaaS platform on AWS/Azure**, introducing **microservices architecture and CI/CD automation**.
- Defined and implemented **test automation strategy (BDD with Cucumber/SpecFlow)**, reducing defect turnaround by 50%.
- Partnered with product teams and customers to deliver high-value, scalable enterprise applications.

Tata Consultancy Services, India – Software Development Manager

Feb 2013 – Sep 2016 | Chennai, India

- Managed a **30-member platform engineering team**, transitioning from legacy delivery to Agile Scrum.
- Implemented **CI/CD pipelines, automated testing, and code quality frameworks**, improving delivery reliability and speed.
- Awarded **Best Program Manager** for Agile transformation with measurable business impact.

Accenture – Associate Manager, Technical Architect

Jul 2011 – Feb 2013 | Chennai, India

- Managed large-scale enterprise applications (.NET, Java) with **secure, compliant architectures**.
- Oversaw development/testing teams to ensure **regulatory alignment and delivery excellence**.
- Integrated NLP-based automation into transactional systems to improve efficiency.

Earlier Roles

Sr. Software Programmer – eGovernment Authority, Bahrain (2008–2011)

Consultant – Emirates Airlines, Dubai (2007–2008)

Software Engineer – iSoft Plc, Chennai (2005–2007)

Programmer – Eutech Cybernetics, Chennai (2003–2005)

Delivered application design, development, and architecture for mission-critical platforms with focus on uptime, SLA compliance, and customer outcomes.

Certifications

- PMP – Project Management Professional (PMI)
- TOGAF 9.2 Certified Enterprise Architect
- AWS Certified Solutions Architect – Associate
- Professional Scrum Master (PSM-I)
- ITIL V3 Foundation

Education

Bachelor of Information Technology – Bharathidasan University, India (2000–2003)
